

Safety Instruction for Used Cooking Oil, Food Waste and Domestic Waste Recycling Container

FATBOXX® + FATBOXX® max + FATBOXX® easy

Read these instructions carefully before operating the container

1. Safety Instructions

1.1. Filling in with hot used cooking oil

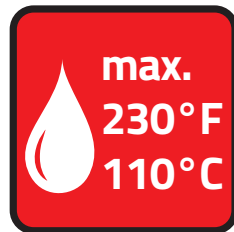

When filling with hot grease, it is essential to observe the following instructions:

Please do not close the lid tightly immediately after filling.

⚠️ WARNING There is a danger of serious burns when filling with hot used cooking oil.

The FATBOXX/FATBOXXmax/FATBOXXeasy can be filled with hot oil up to a maximum temperature of 110°C /230°F.

⚠️ WARNING Usage of oil hotter than 110°C (230°F) leads to serious burns and damage of the container.

1.2. Further Health and Safety Information

- Sitting and standing on the container leads to tipping hazard.
- Always use the handle for transport. (Note: Full containers are heavy and could lead to tipping hazard)
- Please transfer the FATBOXX/FATBOXXmax/FATBOXXeasy only with the tightly secured lid.
- Do not place the FATBOXX/FATBOXXmax/FATBOXXeasy near fireplaces and other sources of heat to prevent container damage.
- Check the FATBOXX/FATBOXXmax/FATBOXXeasy regularly for damage. In case of visible damage, please replace the containers.
- The FATBOXX/FATBOXXmax/FATBOXXeasy is not suitable für purposes other than the collection of oil, food waste, and domestic waste.

2. Assembly of the Container (only for FATBOXX/FATBOXXmax)

Please follow the given steps to install the axles and wheels on the container before usage:

- Insert the first wheel into the axle till you hear a clicking sound.
- Mount the axle-wheel structure to the bottom of the container using the axle holder.
- Insert the second wheel on to the other side of the axle as mentioned above.
- Please make sure that the wheels are securely placed before using the container.

3. Opening the lid

- Position yourself in front of the FATBOXX/FATBOXXmax/FATBOXXeas and grasp the handle.
- Push the lid in the downward direction with one hand and move the clip in the outward direction with the other hand to facilitate the opening of the lid.
- Repeat the procedure as mentioned above at the second handle of the container.
- The lid can now be fully opened from both ends.

See Figure 1.

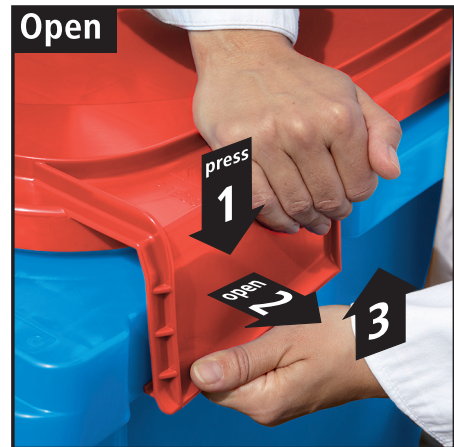

Figure 1

4. Closing the lid

- Position yourself in front of the FATBOXX/FATBOXXmax/FATBOXXeas and grasp the handle.
- Press the lid in the downward direction with one hand and move the clip in the inward direction with the other hand to facilitate the closing of the lid.
- Repeat the procedure as mentioned above at the second handle of the lid

Note: Please ensure the firm closure of the lid after filling of FATBOXX/FATBOXXmax/FATBOXXeas when it is being used as an animal resistant bin. See Figure 2.

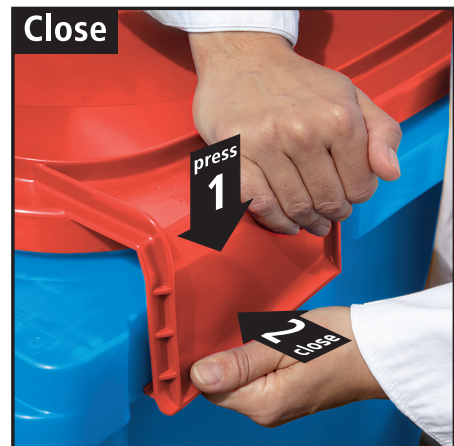

Figure 2

5. Moving the FATBOXX® + FATBOXX® max + FATBOXX® easy

Position yourself behind the FATBOXX/FATBOXXmax/FATBOXXeas and grasp the bin by the handle to tilt the container at an angle in the backward direction to move it. **Note:** Tipping and health hazard due to the weight of the container.

6. Transport of FATBOXX® + FATBOXX® max + FATBOXX® easy

Please secure FATBOXX/FATBOXXmax/FATBOXXeas from movements during transport to avoid tipping hazards.
